INNOVATION & RESEARCH

Where Ideas Become
Impact

At INCOMA, we understand innovation as a driver of change to build the world we want. Our Innovation & Research Department leads transformative projects that connect education, social inclusion, sustainability and digital transformation across Europe and beyond.

In 2024, we played a key role in the design, coordination and implementation of 27 international projects, collaborating with 219 partner institutions across EU countries, Latin America, Sub-Saharan Africa, Northern Africa, and Asia. Each initiative is an opportunity to co-create solutions to today's biggest challenges in education and society.

Innovation & Research **Our Focus Areas**

Green & Sustainable Transitions

Projects like GREENLAB, INVEST, U-GREEN and PortAbility are helping education systems and businesses prepare for greener futures through innovation in vocational training and collaboration.

Inclusive and Digital Education

From INTERMOVE+ (mobility preparation through intercultural and digital training) to RestART (digital resilience for the creative sector), we're redesigning learning to be accessible, future-proof and engaging.

Women & Youth Empowerment

With projects like GAEA (female entrepreneurship in agriculture), WITH (young women in sustainable tourism), and PITCH (gender-sensitive migrant integration), we put equity and empowerment at the center.

Migration, Social Inclusion & Cultural Dialogue

We support integration through education, training and community-based tools, such as the History Box project, which transforms history into a tool for understanding and belonging.

TRAINING 4ALL
European Teacher Training Hub
Empowering Educators with Future-Ready
Competences

2024 highlights

TRAINING4ALL specialises in the management and delivery of training courses for European teachers and education professionals, backed by **over 22 years of experience** in mobility programmes through INCOMA.

Our course catalogue covers a wide range of topics—from active learning methodologies to the integration of artificial intelligence in education—each designed to enhance participants' professional practice.

We also offer **Job Shadowing experiences** across various cities in **Andalusia**, providing professionals with the opportunity to observe and learn from experts in their field. These experiences support the acquisition of new skills and the implementation of best practices in their home institutions.

Additionally, all our courses are **100% fundable** through **Erasmus+** grants (KA1 Mobility), ensuring accessible, high-quality training for all.

High-quality, 100% Erasmus+ fundable training in:

Our Partnership with **in**clusion

For a world where everyone has the opportunity to pursue their dreams for the sake of well-being and care for the environment

In 2024, our collaboration with INClusion – the **Association for Inclusion through Education, Training and Sport** – continued to reflect our shared commitment to building a fairer and more inclusive society. Founded in 2021 and based in Seville, INClusion serves as a key instrument of the INCOMA Group for maximising its community outreach, using non-formal education, sport, and international exchanges to empower individuals from diverse backgrounds.

Rooted in the values of Diversity, Empathy, Equality, Fairness, Respect, Solidarity, and Tolerance.

Social Innovation projects.

Beyond mobility, INClusion's Social Innovation Unit plays a vital role in expanding the organisation's impact through the preparation of grant proposals under international programmes.

9

INClusion was invited to join nine other proposals led by international partners (eight Erasmus+ and one CERV).

Drawing on over two decades of experience from its founding partner INCOMA, INClusion continues to grow as a hub for education, social innovation, and cooperation. Together, we champion projects that promote sustainability, opportunity, and inclusion across Europe.
